I see nothing wrong with healthy back and forth

Subject: Fw: Fw: Attendee List and Additional Background Material - comments on TNC/TU materials

Is this the kind of conversation that would better be done in person v. Email? Just wondering...

That's all you got?!?!?!?

Thanks, Patty for all of this.

My thought is that this is a lot of info to cover; what should be our four or five top questions? what should be our four or five top requests for data?

## Ex. 5 - Deliberative

So, anyway, for tomorrow, I think we need to need to be consistent in our approach in addressing concerns with these guys - and that's why a "Top-ten" list from the amazing work you did below would be terrific.

And then we'll make Szerlog ask all the questions...

Thanks again - B.

Bill -

# Ex. 5 - Deliberative

I will miss the BB meeting next Wednesday since I have a National Mining Team meeting on that day. So, I'll catch up with you and others later regarding the presentation.

- Patty

"Water Quality and Hydrologic Issues Related to the Pebble Mine", Stratus powerpoint presentation

This presentation draws heavily on the report prepared by Jim Kuipers and Ann Maest for Earthworks, entitled "Comparison of Predicted and Actual Water Quality at U.S. Hardrock Mines", aka "The Comparisons Report". The purpose was to compare EIS predictions to actual water quality for 25 mines. I was a peer reviewer of that report

Hi Bill,

I've attached the list of people attending the meetings on the 24th and 25th. I've also attached additional background information for your consideration and review. I look forward to talking with you tomorrow. I am departing for Seattle at 10:00 am arriving 1:45 pm. Feel free to leave me a message or I can plan on calling you as soon as I arrive in Seattle. Have a great evening and see you soon. All my best,

Wayne
